What should I take my first semester?

Every college freshman has this same question. You’ll find some ideas listed below. The college catalog will explain each course in more detail. Check at least one course in each box. You certainly won’t take them all your first semester; however, this will give you and the Specialist you work with a starting point for making some preliminary choices. LS classes are smaller and taught by ACCESS Specialists. If you need to work on basic skills, these are excellent transition courses for you!

### Math
- LS M07A---Basic Math Skills I
- LS M07B---Basic Math Skills II
