C. November – Learning Skills
D. December - CTE: Journalism; Disciplines: Engineering

DISCUSSION:

A. DE Addendum Approval for Implementation
Jerry Mansfield and Lori Bennett discussed the Distance Education (DE) addendum that was proposed last year. The addendum was discussed at length to ensure this would be the best method for detailing “regular and effective faculty-initiated contact” in the Course Outline of Record (COR). The addendum was compared to the current DE addendum in the COR. Jerry suggested an email would be sent out to the committee members to review the proposed addendum, the current DE addendum, along with the college’s definition of “regular and effective faculty-initiated contact.” After review, the addendum will be further discussed in an upcoming meeting. The proposed DE addendum can be found by visiting: http://www.moorparkcollege.edu/sites/default/files/imported/assets/pdf/curriculum/handouts/Proposed_DE_Addendum.pdf

B. General Education Outcomes Rubric
Jerry mentioned there was no official General Education (GE) rubric established yet, but that the GE Workgroup would further discuss the development of a standard rubric. Also, the GE Workgroup was tasked with developing a GE five year review calendar for courses to be presented to the Curriculum Committee. It was discussed that in certain occurrences courses will be coming through Curriculum Committee for approval before they are reviewed by the GE Workgroup due to scheduling conflicts, but with the understanding the GE Workgroup may request further changes and the courses may be returning to Curriculum Committee after revisions.

C. Inactivations
Lori Bennett discussed the inactivations project slated for completion this Fall. The project entails the review of previously inactivated courses and programs by deans, department chairs, curriculum representatives and lead faculty. Lists of these courses and programs will be distributed to deans, department chairs, and curriculum representatives detailing the course impact for each inactivated course, along with a list of inactive programs. The goal of this project is to delete courses/programs, or activate courses/programs this Fall to ensure inclusion of activated courses/programs in the upcoming catalog, as well as reviewing course impacts in other degrees throughout so these programs will have sufficient time to update their affected degrees.

D. 2014-2015 Curriculum Submission and Meeting Dates Timeline
Lori Bennett discussed the Submission and Meeting Dates for 2014-2015 detailing the process and calendar for substantial and/or new courses and programs, and their scheduled timeline for this year’s curriculum. It was also noted catalog deadlines are as follows: February 26, 2015 is the last Tech Review meeting and March 3, 2015 is the last Curriculum Committee meeting for substantial and/or new courses/program submissions. The 2014-2015 Curriculum Submission and Meeting Dates can be found by visiting: http://www.moorparkcollege.edu/sites/default/files/files/faculty-staff/committees/curriculum/Resources/2014-2015_curriculum_submission_and_meeting_dates_8.28.14.pdf
E. Curriculum Member Training
Jerry discussed the various approvals curriculum representatives complete during the approval process in CurricUnet. He emphasized the importance of approving courses with a completed COR at Level 2, and at the end of the process as a curriculum committee member.
