All applicants must take the TEAS V exam in order to be considered for the nursing program. Applicants to the Moorpark College Associate Degree Nursing Program are required to take the TEAS V exam. Not taking the TEAS V within the required timeframe will result in an incomplete application. The TEAS V will be offered at Moorpark College by invitation to qualified applicants only. Qualified applicants are those who meet the admission standards for the Moorpark College Nursing Program, and have submitted a complete application packet. The dates the TEAS V exam will be offered are posted each semester on the APPLICATION PROCESS page of the nursing website. It is very important for applicants to plan ahead with regard to the test dates, and arrange their schedules accordingly. No make-up exam dates will be offered. Students preparing to take the TEAS V may purchase the TEAS V Study Manual offered through ATI (at www.atitesting.com) if desired. When taking the TEAS V at Moorpark College, student identities will be checked by driver’s license, passport, or state identification card.

If an applicant has taken the TEAS V exam within the 12 month period prior to applying to the Moorpark College Nursing Program, those results will be accepted. Transcripts for the exam must be sent directly by ATI to the school. In addition, if an applicant takes the TEAS V at a different location, it is his or her responsibility to request the results be sent by ATI (www.atitesting.com) to Moorpark College’s Nursing Program. In all cases, the exam results must be received by the Nursing Program before that semester’s final TEAS V exam date. ATI charges a fee for this service. The student is responsible for payment of this fee. TEAS V results sent electronically to Moorpark College will be matched to the name under which the student applied to the Nursing Program.

Students with prescribed testing accommodations related to diagnosed disabilities will be responsible for arranging their testing with ACCESS.

The Nursing Program reviews multiple components of the applicant’s TEAS V score as part of the application process. Applicants scoring less than 62% “adjusted individual total score” will be required to complete specific remediation courses prior to possible admission to the nursing program should the applicant be selected. **Deferral of admission (if selected) is not allowed for incomplete remediation.**

If the proctor observes any infraction of test protocol the individual’s test will be stopped and considered invalid. Immediately following the test, the Health Sciences Department will complete all of the following:

- Generate a report citing the details of the infraction.
- Send a letter to the student stating the test is not being accepted due to test procedures not being followed, as any compromise in testing procedure renders the results invalid.
- Place a copy of the report and letter in the student’s application file.
- Report the violation of Moorpark College’s Academic Integrity Policy to the Dean of Student Conduct. The college catalog or the Moorpark College website may be referred to for information on the Policy.
- If at any point the Health Sciences Department is notified a second time concerning test protocol being violated by a student, the student will be denied admission to the Moorpark College Nursing Program.
