

Information Technology Update

- Upgraded images and applications in 5 labs
- Rolling out new software and operating system patches across the campus for staff machines
- Rolling out new version of Antivirus application to all systems – rolling upgrade
- Added additional wireless access points
- Continuing network infrastructure upgrades in areas with older network equipment
- Provided quotes for several areas for additional laptops and carts on wheels (COWS) for grants and one-time funding
- Receiving tech refresh orders – replacing 22 projectors and 500 computers over the summer
- No additional IT projects can be completed over the summer
- New 48 station computer lab being built – furniture and PC orders processed
- GYM renovation – met with the electrical engineers and contractors to discuss the data cabling for security cameras and building infrastructure
- Admin building power – worked with M&O to ensure the Admin building is properly fed from generator. Also moved all network and information systems onto protected power circuits
- Working closely with DAC IT to adapt to new security measures needed to keep systems and data secure – Milton security to identify potential bots
- No existing template for faculty web pages
- New Library system – no CashNet payments available for students to pay late fees through the Library system
- New upcoming Adobe Single Sign On (SSO) creating issues for labs and user experiences – working with Adobe on a resolution
- Technology Master Plan – Just received the input sheets from the Planning Retreat and will incorporate input (not all) into the Technology Master Plan
- EMV readers (credit card readers in SBO) are set to be installed in June
- DAC is requesting that all computer orders be entered no later than April 1 next year to provide adequate time to purchase
- Blocked over 750,000 threat attacks and over 116,000 attempts to malicious websites in April
- Blocked many more threats with antivirus application and spam filter
- Completed 305 work orders
