

MOORPARK COLLEGE

Facilities – Committee on Accreditation and Planning

Plans, monitors, and evaluates facilities and project-specific issues, The Facilities Master Plan, The Accreditation Self-Study and monitors implementation of Agenda 5 of the self-study relative to facilities.

GOALS & ACCOMPLISHMENTS 2010-11

GOALS	ACCOMPLISHMENTS
Facilities Master Plan – Review, develop, and document a planning and assessment process for tying the 5-year Capital Plan to Facilities Master Plan and the Education Master Plan in relation to both the Resource Allocation Planning cycle and Technology Plan.	Not implemented; pushed into 2011-12 in order to obtain direction and guidance from District Capital Planning staff on process for moving forward.
Secondary Effects – Continue and document discussions of the secondary effects to the campus of the completion for all new construction projects and their impact on remaining capital planning priorities.	On-going; these discussions took place as part of the facilities review and prioritization process for this fiscal year.
Review and update the impact of the new campus parking structure its secondary effects.	Completed. More discussions will take place as project moves through the design approval process.
Develop a plan for implementing sustainable green technology initiatives throughout the campus.	Not implemented; begun discussions which will continue into the next fiscal year.
Way- Finding – Review and improve existing and proposed sidewalks, pathways, signage, and campus beautification projects, etc. as impacted by campus construction and renovation projects.	Completed discussions, definition and need for project. Implementation may be delayed for budgetary reasons.
Special Repairs – Review and prioritize repairs and renovations to existing buildings utilizing bond funds.	Completed; list of health and safety-related projects has been developed and shared with Committee.
