MOORPARK COLLEGE
Technology – Committee on Accreditation and Planning

Plans, monitors, and evaluates institutional technology including hardware, software, and training needed to support student learning: the Technology Master Plan and Technology Inventory; funding for technology based on an allocation of at least 30% of instructional equipment funding dedicated each year to technology equipment, software, and hardware needs identified in the Technology Plan and annual Program plans; The Accreditation Self-Study; and Monitors implementation of Agenda 3C of the Self-Study relative to facilities.

GOALS & ACCOMPLISHMENTS
2011-12

GOALS	ACCOMPLISHMENTS
1. Monitor the implementation of the MC Operational Technology Plan 2011-12.	Goal to be revised to reflect real role of committee which is to review the status of implementation and provide feedback, which occurred throughout FY12.
2. Update the MC Operational Technology Plan as needed 2011-12.	Completed.
3. Develop a process to assess the effectiveness of the resource allocation processes with respect to technology needs.	Process of planning and allocation was completed for FY12; a process for assessing the impact of technology allocation across the campus in program and non-program areas needs to be developed.
4. Evaluate and make recommendations on the requests submitted by the various departments for distribution of the IELM and Technology Refresh funds.	Completed.
5. Review and evaluate the effectiveness of the rollout of various IT-based campus initiatives, such as "thin client", etc.	Completed as part of Goal #1.
6. Communicate to the campus community during the Town Hall meetings on the committee accomplishments and activities for the academic year.	Completed as part of the campus Town Hall meeting on the budget.
7. Monitor the completion of the Accreditation Self-Study Recommendations IIIC	Responsibility for this has been assumed by a working group of EDCAP.
8. Update the 3-year MC Strategic Technology Plan as needed.	In process.
