Update on SLO Mapping Worksheets <ul style="list-style-type: none"> <li>Progress</li> <li>Next Steps</li> <li>How to Keep Current Moving Forward?</li> </ul>	Files are being emailed to SLO committee reps as each discipline's "set" of course worksheets are ready for review. The SLO committee rep will then take the worksheets to the discipline faculty for their input. SLOs/PLOs are to be proofed for completeness and accuracy, and then linked to the various levels of Outcomes (course SLOs will each identify which PLOs and which ILOs, and any GLOs that are directly related). Student Service and Business Service areas will be asked for their input as to how the worksheet template could best be modified to meet their mapping needs.	Mary Rees and Lisa Putnam will take the SLO Mapping Worksheet template to Student Service Council for discussion.
Update on General Education Outcomes in TracDat	TracDat will allow us to easily "map" our course-level SLOs to the appropriate GLOs. The work that is now being done on the mapping worksheets will be translated into TracDat over the summer. These will then be ready for final proofing during the fall semester.	
Institutional Level Outcomes Conversation	The discussion as to whether or not GLOs should also be our ILOs took place. The discussion lead us to the decision that we should keep the GLOs and ILOs separate, treating the GLOs as a program level outcomes. It was recommended that our ILOs be re-worded a bit for clarity, and to be sure that our Services Areas (Student and Business Services) be reflected in the ILOs. It was agreed to keep the ILOs as simple as possible, yet inclusive.	Mary Rees agreed to bring a draft of how we might revise our ILOs. She invited the group to email any suggestions. The draft will be available at our March meeting. Mary Rees and Lisa Putnam will also take the draft to Student Service Council for discussion.
