

California State University General Education Requirements

Certification Pattern

CERTIFICATION: "Certification" means that Moorpark College has verified that a student has completed the lower division General Education requirements for the California State University. It is important because the requirements differ slightly from campus to campus. Once "certified", the CSU campus of choice will know that the student has completed requirements as articulated between the CSU and Moorpark College (9 units of upper division General Education courses must be completed after transfer). Courses from other schools may be considered by catalogue evaluation. Please see a Moorpark Counselor for assistance. It is the student's responsibility to request "certification".

MINIMUM ADMISSION REQUIREMENTS: A student must complete 56 or more transferable units with a minimum GPA of 2.0 "C" or better (2.4 for non-residents), be in good standing at the last college or university attended, and have completed or made up missing college preparatory subject requirements. Missing college preparatory course requirements may be made up by: high school graduates prior to 1987 may qualify for admission by completing with grades C or better each course of the CSU general education requirements in Communication in the English Language (at least 9 semester units) and mathematics (usually 3 semester units), or 1988 and later high school graduates may complete with a grade C or better in each course a minimum of 30 semester (45 quarter) units selected from courses in English, Arts and Humanities, Social Science, Science, and Mathematics of at least equivalent level to courses that meet general education or transfer curriculum requirements. All CSU general education requirements in Communication in the English Language (at least 9 semester units) and in Mathematics (usually 3 semester units) must be completed as part of the 30-semester unit requirement. The remainder of the units can be selected from any of the designated areas.

Certain programs for which there are more applicants than there are spaces available, i.e. impacted programs, have additional screening requirements. See your Moorpark counselor for details.

ADVANCED PLACEMENT INFORMATION: The following Advanced Placement examinations may be incorporated into certification of completion of CSU General Education-Breadth requirements by any participating institution. Students must have scored 3, 4, or 5 on an Advanced Placement examination to receive credit. Individual CSU campuses may choose to accept more units than those specified below towards completion of General Education-Breadth requirements. The CSU campus to which the student is transferring determines the total number of units awarded for successful completion of an Advanced Placement Examination and the applicability of the examination to other graduation requirements.

Certification and Double Counting

Executive Order (E.O.) No. 167 delegates to the California Community Colleges the authority to identify baccalaureate courses applicable to the CSU executive Order No. 595 authorizes the California Community Colleges to designate courses that fulfill the General Education-Breadth requirements. Since 1982, community colleges also have been authorized to designate, using the provisions of E.O. no. 405, community college courses that fulfill the U.S. history, constitution and American ideals requirement. Although graduation requirements vary among CSU campuses, community colleges can ensure maximum compatibility between community college courses and CSU lower division requirements through utilization of the certification process.

All CSU campuses allow applicants who submit full or area certification to double count courses for general education and minor requirements.

Most CSU campuses allow double counting for general education and major requirements to applicants who submit either full or partial certification. Exceptions are indicated below.

Bakersfield - Courses can be dbl. counted if articulated; **Chico** - Dbl. counting is not allowed for students in a special major; **Fresno** - Dbl. counting permitted subject to departmental approval. A maximum of two courses may be dbl. counted for most majors; **Fullerton** - Fully certified applicants, except those applying to business administration, communications, and psychology, can dbl. count. Applicants with only area certifications cannot dbl. count courses; **Maritime Academy** - In view of three-year minimum attendance, certification not recognized. Dbl. counting allowed in all majors; **Monterey Bay** - Dbl. counting is not permitted; **Pomona** - Dbl. counting is not permitted for general education and major requirements; **Sacramento** - Dbl. counting is limited to 6 lower division units in major subject areas; **San Bernardino** - Dbl. counting is permitted except for philosophy and communication majors; **San Francisco** - Campus allows a total of 12 units in major and GE to overlap in either upper or lower division; **San Jose** - Dbl. counting is limited to 3 units of Advanced GE with courses offered by the major department (except multiple subject teacher preparation programs); **San Luis Obispo** - Dbl. counting is permitted except in areas C.3 and D.4.b; **San Marcos** - Dbl. counting is permitted; **Sonoma** - Some dbl. counting is permitted; **Stanislaus** - Dbl. counting is limited to lower division courses. Upper division GE courses are not allowed to dbl. count for any major.

Dbl. counting of courses to meet General Education-Breadth. Exceptions indicated below.

Chico - Applicants cannot dbl. count courses except for certain high unit majors.
