WELCOMING SPACES

This foster youth friendly logo was created to symbolize a safe and supportive environment or person, familiar with both the issues and challenges that youth from foster care face. College students who see this symbol will know that staff are equipped to assist them in higher education. The color blue was selected to coincide with the Foster Care Awareness month blue ribbon. The focal point of the graphic is a larger heart wrapped around a smaller heart symbolizing the importance of wrap-around services and support for youth from foster care in higher education. The left side of the hearts are larger representing a need for the presence and permanency of caring and supportive adults in the lives of youth from foster care. Finally, and most importantly, the smaller right side of the heart symbolize successful achievement of the youth's aspirations and dreams including their graduation from college symbolized by the mortarboard cap on the graduates head.
