Celebrate Women's History Month by reading a book from the Moorpark College Library! Search our catalog for a book that is either written by a woman or gives perspective to females' experiences. The books below are available to take home for three weeks. Please also visit the Library on the second floor of the LLR building to view our display on Women's History. The Library also has online content with over 600 titles that cover Women's History across cultures, traditions, and nationalities.
NEW ONESEARCH WEBSITE

We’ve had a makeover! Check out the new Library website with the improved capabilities of OneSearch. The first thing you’ll notice? One big search box, right in the middle of the page, just like Google, so students will feel comfortable with the layout. But the change isn’t just for looks; when you and your students use OneSearch, you can search the Library Catalog, all the databases, and the world wide web all at once.

NEW WAY OF SEARCHING

Library resources are prioritized and will come up as the first results of most searches. Whoa, too much?! Don’t worry!

Below the big OneSearch search box are options to search one place at a time: Library Catalog, Course Reserves, Databases, Research Guides, and Video Tutorials.

MORE ABOUT ONESEARCH: NARROWING RESULTS

Had a chance to play with OneSearch? Got too many results? Here are some ways you can narrow down that search and get a more manageable list of results:
Our Favorite Ways to Limit Searches:

1. The drop-down menu at the right of the search box. Change it from “Everything” to “Library Catalog,” “Course Reserves,” or VCCCD Libraries (for all three colleges’ catalogs).
2. The Advanced Search option to the right of the search box. Find your good ol’ Boolean Operators (and, or, not), search field choices (keyword, author, title, and more), plus other options such as material type, language, or date.
3. The navigation bar (nav bar) on the left. Highlights:
   - Under “Availability,” you can select “online,” “peer reviewed,” “open access,” or “held by Library.”
   - Use “Resource types” to select the kind of media you’d like: news, reviews, websites, books, images, data sets, or others.
   - Use “Author, Creator” to select an author or institution that has written the resources in your results list.
   - Under “Collection,” you can limit your results by databases, both library-held and open-access.
   - You can also apply filters for date of publication, journal title, or language.

New Streaming Video Databases Available

Searching for a good video to show your class? Students looking for video documentaries, performances, and more? Click on the Databases by Subject icon, and look under Video Streaming. There, you’ll find Kanopy and Ethnographic Video Collection, our new acquisitions, right along with our other video resources (Digital Theater Plus), Swank, and Films on Demand!
