

ACCJC Midterm Report Survey

Draft 2/12/2020

To be administered in Qualtrics to Deans and Chairs

Rate your agreement with the following statements (agree | disagree | not applicable):

1. I believe that assessing SLOs leads to improvements in teaching and learning.
2. My department discussed SLOs in the past year.
3. The new Tableau data dashboards created over the past few years for program planning have improved the college's capacity to make data driven decision making.
4. The cheat sheets provided for program planning have been helpful. (click here to download a copy for reference)
5. Small group training meetings with the IE Office staff for program planning have been helpful.
6. The program planning template has substantially improved since 2016.
7. I am generally satisfied with the resources provided on the planning website. (click here to see the planning website)
8. Communications about resource allocation decisions have improved since 2016.
9. The alignment between program planning and the college's strategic plan has improved since 2016.

Open ended questions:

1. Provide an example of how you have used SLO data to make improvements to a course, program, or service.
