

2017-19 Integrated Plan: Basic Skills Initiative, Student Equity, and Student Success and Support Program

Background:

- Prior to FY 2016-2017, each of these initiatives—the Student Success and Support Program, Student Equity, and Basic Skills, were required to submit an annual College Action and Expenditure Plans to the Chancellor’s Office. Colleges gave feedback that this planning process was laborious, redundant, and often developed independently from one another. In response to this, the Chancellor’s Office suspended plans for 2016-2017.
- Beginning FY 2017-2018, the Chancellor’s Office combined the planning for these three initiatives with the new **Integrated Plan: Basic Skill Initiative, Student Equity, and Student Success and Support Program**. These programs were selected as a starting point for integrative efforts for two main reasons: 1) all three have the same ultimate goal of increasing student success while closing achievement gaps; and 2) there is a strong potential for overlap between and among the programs.
- The 2017-19 Integrated Plan will cover two years. The budget plan will reflect the 2017-18 allocations. Integrated fiscal reports will be required on an annual basis.
- All programmatic and student outcome data will be collected via existing MIS reporting. No additional data submissions are required.
- Colleges are encouraged to align integrated program plans with their college and district strategic plans/education master plans.
- Plans are to be developed in consultation with students, staff, administrators, faculty, Academic Senate, and members of the community as appropriate. Plans must be adopted by the governing board of the community college district and submitted to the Chancellor’s Office by December 15, 2017. A separate plan must be submitted for each college in the district.

Key Highlights:

Five integrated goals for 2017-2019 include:

- Identify and support at-risk students (academic or progress probation).
- Narrow the achievement gap of disproportionately impacted student populations, particularly (Latinos, African Americans, Veterans, and Foster Youth) that start college underprepared.
- Professional Development aimed at decreasing the equity gap.
- Provide clear pathways for students to complete the requirements for transfer, degree attainment, and certificate of achievement completion.
- Provide work-based learning opportunities to enhance student success and employability.
