XVIII. REPEATABILITY JUSTIFICATION TITLE 5, SECTION 55041

Please check all that apply:

1. This is a course in which the **content differs** each time the course is offered. For the course in which the content may change significantly after a period of time, there must be a mechanism for ensuring that when a student wants to re-enroll, the content is different from the last time the student took the course. Indicate in the course description the circumstances that would permit repetition.
2. This is an **activity course** where the student meets course objectives by repeating a similar primary educational activity and the student gains an expanded educational experience each time the course is repeated for the following reasons:
- Skills or proficiencies are enhanced by supervised repetition and practice within class periods; or
 - Active participatory experience in individual study for group assignments is the basic means by which learning objectives are obtained.

NOTE: Foreign language courses, for-credit ESL courses, and non-

degree-applicable basic skills courses are NOT considered activity courses and therefore cannot be repeated.

- 3. This is a **physical education activity course**.

NOTE: Activity courses which involve the same primary educational activity (e.g., golf) or different levels of the same activity (e.g., beginning and intermediate golf), must combine all enrollments across all of these similar courses for purposes of the four enrollment repeatability limitation. In other words, a student may not enroll in beginning and intermediate golf four times each, but may enroll in these golf courses for a total of four times.

- 4. This is a **visual or performing arts courses** in music, fine arts, theater or dance.

NOTE: An exception is made for activity courses in the visual and performing arts in the same area (e.g., piano) that are a part of a transfer sequence (documentation maybe required). Students may repeat each level of each course (e.g., Piano 1, 2 and 3) up to three times for a total of four enrollments in each course.
