#### 1. Courses to be reviewed: None

No discussion.

#### 2. GLOs Discuss the following from the last meeting:

Amanuel will speak with Julius to clarify the GE Subgroup's charge with respect to GLOs. Should the group simply receive the outcome form from the SLO committee, or should the group be involved more deeply with the SLO group's GLOs assessment?

Julius Sokenu attended meeting to address GLOs. Letrishia indicated that the GE Workgroup needs an update from the SLO committee regarding GLOs. Since GLOs were established and assessed the GE Workgroup has not had an update. Lee Ballestero indicated that the SLO committee is assessing many of the social and behavior science courses (AREA B) this semester. At least one learning outcome is assessed in as many disciplines as possible. An update on that assessment would not occur until the beginning of the Fall 2017 term due to the assessment timeline. Lee/Letrisha indicated physical sciences were perhaps assessing now. Julius suggested that the GE Workgroup invite Katy Booth and one or both of the SLO co-chairs to the workgroup to discuss the process. He also indicated that the GE Workgroup should receive updates at the end of the assessment cycle which will fall at the end of the spring terms. This would mean the GE Workgroup would receive an update at the beginning of the following fall term. The GE Workgroup could then report back to the Curriculum Committee. Amanuel will invite all parties to the next meeting on Tuesday, February 21 at 1:00 in FH-112A.

### 3. General Education Rubric and Statement:

The group will revisit the current rubric and questionnaire at the next meeting. It is suggested that the group compile documents/checklists into one set of instructions to make it easier for faculty to access the information when requesting a course for GE inclusion. Jodi will send documents to Lee Ballersterro for review.
