

Moorpark College Curriculum Committee
General Education Curriculum Subgroup
September 20, 2016

Course	GE Area	Recommendation
OPT M01	C1	Not recommended
BIOL M18	A1	Recommended

1. OPT M01

Not recommended for MC GE.

No justification statement provided.

Has a prerequisite of admission to the Optician Tech Program

Does not meet rubric guidelines for general education designation.

2. BIOL M18

Recommended for approval. This course will be proposed for CSU GE and IGETC in Dec. 2016. Results expected back in April 2017. To avoid any confusion for our students and counselors, it's recommended that the course should not be offered until it receives CSUGE and IGETC approvals. If offered before receiving CSU GE and IGETC approvals, a student who takes this course should be advised that it does not fulfill CSU/UC general education.

This is a pre-allied health course mandatory for OPT TECH program, will articulate for HS pathway GE, and recommended for Rad Tech and Nursing students.

3. Goals

- Follow-up with GLOs, (general education learning outcomes) to ensure they are assessed and measured according to calendar GE subgroup created a couple of years ago. Emanuel and Jodi will follow-up with Lisa Putnam and Julius Sokenu to discuss progress and results.
 - Review General Education rubric and statement. Jodi will email current rubric to GE subgroup.
 - Discuss possibility of keeping a summary of curricular changes of all courses the GE subgroup reviews. Letrisha will send template. It is recommended that Jodi request notification from Michael Trainor, Jerry Mansfield, and Julius Sokenu when a course is asking for GE because the course moves very quickly from level 2 to level 4 and it's challenging to know which courses are asking for GE and those that are not without opening every course outline. Discussed that there is a statement in CNET indicating that a course is automatically approved for Moorpark College GE, under option 1, if approved for CSUGE or IGETC. We need to find the resource or documentation of how that decision was made.
4. Jodi will reserve a room for future meetings. A-138 would be best, but we will see what is available. Confirmed that the group will meet every third Tuesday @ 1:00 PM.
