

**Moorpark College
Office of the President**

MEMORANDUM

To: Senate President Riley Dwyer
From: College President Pam Eddinger
CC: Interim EVP Jane Harmon
Date: September 13, 2012
Subj: Consideration for Program Discontinuance 2012

The Office of the President has received the status report for Program Plan Evaluation process for 2012. I have since reviewed and analyzed the program plan data, the findings, and the recommendation from the Program Plan Evaluation process. Please find below my recommendation for program discontinuance, and a request that you initiate the Program Discontinuance process as defined in AP 4021.

Drafting Technology

- Discontinue Drafting Technology/CADD Certificate of Achievement
- Discontinue CADD Proficiency Award
- Discontinue Discipline and Associated Courses

Rationale

Low number of completers for the Certificate and Proficiency Award: 2008-09 = 7; 2009-10 = 3; 2010-11 = 5. CADD drafting will be taught in ENG M04 Engineering Design/CAD, as part of Engineering Curriculum.

Education

- Discontinue Discipline and Associated Courses

Rationale

Limited number of courses offered. Enrollment limited. Students transferring to upper level universities may complete courses in liberal arts and courses specific to their discipline of interest, and declare an Education Major at the upper level. No substantive articulation with upper level universities in this discipline.

Nutritional Science

- Discontinue Discipline and Associated Courses

Rationale

Enrollment is limited to two courses, and there is no future plan to expand the discipline into a full Career-Technical program.
