## **VCCCD RECEIVES ACCREDITATION COMMISSION REPORT FINDINGS**

The Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges (Commission) has released its official follow-up review findings for Ventura County Community College District (VCCCD). The Commission has moved all three of the District's colleges to "Probation" status due to deficiencies identified by the Commission pertaining to the Board and governance. Per the Commission's statement, "The team report confirmed that board development activities had been provided and that all board members were encouraged to attend. At the same time, the team expressed concern about the consistency and long-term sustainability of the Board's demonstration of its primary leadership role, and reiterates its recommendation for evidence of ongoing professional development for all Board members. Specifically, the Commission notes a particular board member's disruptive and inappropriate behavior, and the entire board's responsibility to address and curtail it."

A probation status indicates the Commission finds an institution deviating significantly from the Commission's Eligibility Requirements, Standards, or Commission policies that gives concern to the Commission. The Commission is the accrediting agency that ensures its member institutions meet required institutional standards recognized by the Council for Higher Education Accreditation and the U.S. Department of Education, including mission, institutional effectiveness, student learning, student services, resources, leadership, and governance.

Accreditation status of the colleges continues during probation status; however, accreditation status cannot be reaffirmed until the recommendations for improvement have been satisfied.

The District and its colleges are now required to submit a special report addressing the Commission's eligibility concerns by March 15, 2012, with a follow-up report regarding all District recommendations by October 15, 2012. Both reports will be followed by a visit of Commission representatives.

Stephen Blum, Chair of the Board of Trustees, stated, "The Board recognizes and accepts the gravity of this situation and assures students, employees, and the community that we, as a full Board, are committed to do what is necessary to rectify Commission concerns." VCCCD Chancellor James Meznek commented, "I am confident the Board will move aggressively to satisfy all Commission requirements. We will use this as an opportunity to improve."

The Board of Trustees will accept the Commission report at its February 14 Board meeting, and a Special Board meeting will be scheduled to discuss and plan for the resolution of issues as stated by the Commission. The Commission letters can be viewed on the District website at [www.vcccd.edu](http://www.vcccd.edu).
