Q4 - How could the committee improve the effectiveness of implementing its charge?

How could the committee improve the effectiveness of implementing its charge...

Meeting all the goals for the year and supporting students needs.

Engage members more

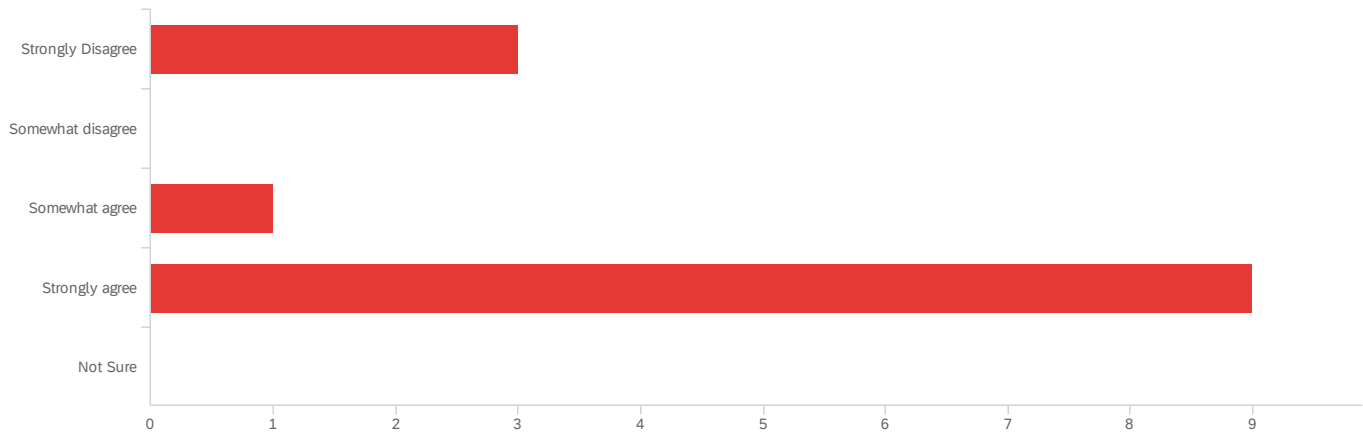

The committee can improve by making sure that the requested funds for different areas will be used.

they do a great job...no suggestions at this time.

The agenda says the charge is "to make recommendations on college-wide planning related to Student Success Activities." I do think that we worked to identify populations we wanted to help but I do wish we had heard more about the specific activities that were occurring to promote student success, outside of tutoring which received a lot of attention (and for good reason). In terms of "Recommend, coordinate & support programs & services that support diverse groups of students in order to promote student equity," it felt like maybe one or two people were actually doing this work on the ground, though the committee members definitely got to weigh in and share ideas.

Q6 - How could the committee improve the value of its work?

How could the committee improve the value of its work?

Getting more people involved in addressing our equity efforts.

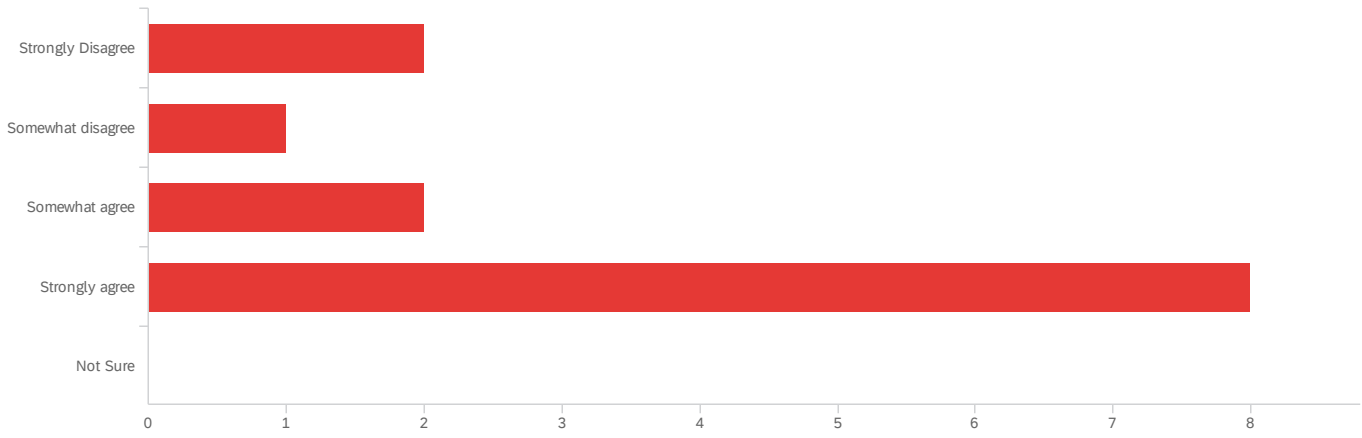

Make us part of the decision. Hold real time voting on budget issues

The committee is doing great job so far.

I don't have suggestions for how the committee can improve the value of its work, but I can say I don't hear much discussion in other committees or areas about the work done by SEA. I think there should be more sharing of committees' work/progress in division meetings and in committees or workgroups whose efforts overlap with one another.

Hold more frequent meetings that last for a shorter period of time

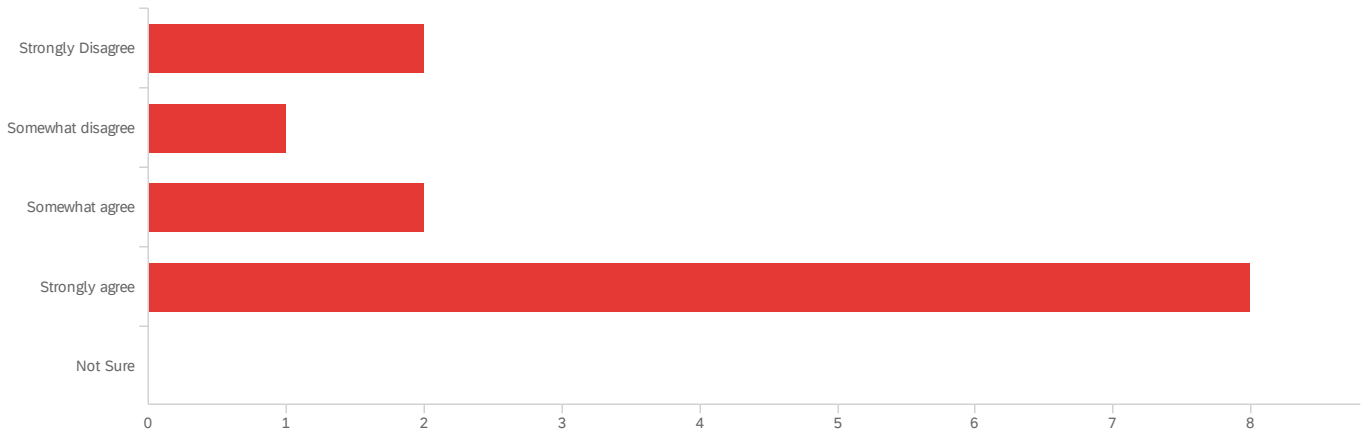

To communicate ideas, concerns, goal, completions, and recommendations through dialogue between the committee and their constituents.

The VCCCD's participatory governance is very unique. I don't recall learning about it in my new hire onboarding or in the employee orientation; having it explained on the onset of employment would help set the stage for the way the college and its decision-making processes work.

I am newer to the committee. However, I do feel thoroughly informed about the charge and the focus of this committee.

Demonstrating how participation is reflected in decision making processes.

Q9 - Through my work on this committee I feel I have provided valuable service to the College.

Q10 - How could the committee help you feel your service is more valuable to the College?

How could the committee help you feel your service is more valuable to the...

By focusing on the objectives and ensuring that we support the students that need the most support.

While our work may not directly contribute to students' successes, I believe that we could survey more students to get their feedback on the many services and programs on our campus.

by encourage.

I think the work done by SEA is important, but I don't necessarily feel like I actually had a role in any implementation of the work set out by the committee.

Q11 - What suggestions do you have to improve communications both within the committee and between the committee and the campus?

What suggestions do you have to improve communications both within the comm...

Continuing to align our SEA efforts from a systemic approach. Focusing on pedagogy, intrusive support, and training that will lead to outcomes.

We have great communications within the committee and the committee and the campus so far.

See earlier response about communications regarding SEA and its work for the campus.

Keep Trulie Thompson on as committee chair.
