MATH M11	College Algebra for Liberal Arts	D2	New	Will propose for B4, 2A in Dec. 2019	

III. GE and SLO – Rachel Beetz

IV. Discuss and establish GE review process

- Review revised GELO forms, see attachment
- Establish process and update templates/forms, if needed, to be used for future review.

Tentative process proposed:

#1) Faculty who are requesting GE approval for their courses – if it already does not have CSU or IGETC GE status – will need to provide a written statement explaining Why they think their course should be GE approved for the area that they are requesting and upload it as an attachment into the CurricUNET in the Attached Files for their course, so during our GE workgroup meetings we can pull it up, read it, and make recommendations.

#2) The Statement that they would need to provide should have some uniform structure. In the past – last year – we had a template that we were using (sort of kind of ... not everyone was doing it) but this year, I am sure you will all agree, that no one has used that template. If you are wondering what template I am talking about, please see my immediately to follow email – I took pictures of it with my phone. During our next meeting, we should have a substantive discussion on the format of this template, make some edits if need be, and then make it available to faculty to use.

Future Meeting Date

- Next scheduled meeting is Feb 26, 2019 at 1 – 2:30.
