ACCT M110	2016	Performance on CLO 2 was relatively poor. I will spend more time on the topic, and provide additional resources. One thing we've done in the past was to try a new textbook which included homework that can be repeated multiple times and has videos, and adaptive reading. We believe it helped with learning. Participation was poor on CLO 3. I plan to raise the points available for all CLOs to encourage better participation.
