Subject: RE: Registration: Missing Portfolio Class

Hi Erika,

We should be able to offer Portfolio once per year. Such capstone classes can be considered to keep open even if enrollments are smaller because they are required for degree completion.

It makes sense to see if Ivy might be interested in teaching the class in Spring 2023. If we aren't authorized to continue it, depending on the enrollment, then having these back-up options to refer students to will be helpful. If they don't plan to graduate until the end of next year, I think it's good to let them know that we are going to schedule the class for Spring 2023.

Thanks!

Priscilla

Subject: Fw: Registration: Missing Portfolio Class

Hi Priscilla,

I received another email yesterday from a different student looking for the [Portfolio](#) course. At this point, that is 4 students that will be needing the DES M90 course. I'm wondering if that is something Ivy would be willing to teach in the Spring.

Thanks,
Erika
