Recommendations for Books

The library welcomes recommendations from the faculty for purchase of materials. We rely on your expertise to develop and maintain the collection in your subject areas and encourage recommendations for materials that will support your classroom assignments.

Books/eBooks/library materials requests are encouraged. You may email one of the librarians with your recommendations or submit your requests electronically by completing the **Item Request Form**. Please provide as much information as possible on your recommended items. The library orders books and library materials as funds permit. Once the book is cataloged and processed, we will notify you by email.
