Q3 - In what ways were the success coaching sessions useful to you?

In what ways were the success coaching sessions useful to you?

I learned a lot about the transfer admissions process for UCLA and what I need to do now in order to prepare for applications in a few years.

Helping me with procrastination and time management

He tells me what I should doing in college.

Helping to find internships

I was able to think further about what I want my future to be and to open myself up to other options.

Helped me get more organized with school and classes

The success coach cleared up some questions I had about transferring to a specific school and it also gave me some good information on getting involved with school activities such as clubs and programs.

Success coaching made me aware of resources that I was initially unaware of. It also encouraged me to participate in the college environment, specifically clubs.

She helped me find some resources and she helped me find some clubs for my major

She taught me study tools to help with my procrastination habits and also answered all of my questions about my major and classes.

It was really helpful learning about all of the programs and workshops that Moorpark has to offer, my coach was extremely supportive. I liked being able to check-in with someone and ensure I'm making the most out of my experience here at Moorpark.

Helping me figure out what schools to look at and or attend to for my degree

They helped me clear up any confusion I had about my future.

I don't want to be in the FYE progrome any more please.

They helped me learn more about the programs and just Moorpark in general.
