Vital Partnership Helping Students!

Collaboration between Moorpark College and Simi Valley middle schools

Provide tutoring to 6th, 7th and 8th graders

Launched Feb. 1, 2021

To date: 174 appointments

From Justine Wienken-Simi Valley Curriculum Specialist

Simi Valley Unified School District is very pleased with the Moorpark College Tutoring program and the learning opportunities it is providing for our middle school students. Deborah Brackley, the Tutoring and Supplemental Support Supervisor worked hard to get the program running in a very short timeline. The tutoring staff she provided is wonderful. They are personable, great with kids, adaptable, and very capable. Due to the program's success, we are hoping to expand the program to include elementary school and potentially high school students.

Meet the Tutors

Scott – Mon/Tue 3-4

I am a Mathematics Major and I am very excited to be working with all of you! I am a firm believer in Growth Mindset. I can't wait to work with you on all types of problems, as well as come up with strategies for homework and tests! Math can seem very dull at first but I like to put the FUN in functions! Looking forward to working with everyone!

Junior – Mon/Tue/Thurs 3-4

I am an international student from Brazil and am majoring in Electrical Engineering. My favorite hobbies are playing guitar, listening to music, and going on adventures! I have worked as a tutor for more than one year now, and love my job. Helping others learn and get a good grade is one of the most rewarding things of my life. I am happy to be here to help you too :)

Sofia (Sof-Eye-Yah) – Mon-Thurs 3-4

I am a third year Chemistry major. There's nothing I Love more than helping a student break through a brain barrier. Well, actually, I am also a pretty big fan of anything chocolate and NBC sitcoms. Though, everything put aside, I am insanely excited to start working with you! Together we can tackle any tough problems. I absolutely cannot wait to meet you!

15 students were polled. Here are the results:

How was your tutoring experience?

- 100% said Excellent

Did you feel welcome and supported?

- 100% said yes

Did you receive help in Math or English?

- 11 Math, 4 English

Would you use this service again?

- 100% said yes they would definitely use this service again.
