Vice Chancellor El Fattal reviewed the Budget Criteria and Assumptions. Trustee Chancer asked if it includes new programs and services to students and indicated he would like to see a list of new programs that are coming through our colleges. Some discussion followed and the process of how new programs are reviewed through the governance committees and Board was explained by Vice Chancellors El Fattal and Herrera. At the end of each cycle, the Board is provided with examples of how the money was used to move things forward and includes goals, objectives, and outcomes. Each strategic plan aligns the new programs and DEI also has public documents to see which programs, curriculum and courses are coming forward for review and each program also goes through the Participatory Governance process.

For the record, Trustee Chancer voted 'No' because he believes we have more resources to support students, and we should.

Trustee Chancer asked if the Board approves both items in *15.01 Action to Approve Acceptance of FY 2022-23 Budget Criteria and Assumptions* and *15.02 Action to Approve FY2022-23 Ventura County Community College Districtwide Resource Budget Allocation Model*, does that then give the District the ability to approve the new positions at the District. Vice Chancellor El Fattal indicated that new positions will be reviewed by DCAS and will likely be brought to the Board for review in April.

Trustee Torres commented on enrollment management. Our goal is to increase our FTES and to see an increase in enrollment. She would like to know what the true amount is that we have in reserves and asked if the Board has the ability to designate where unrestricted funds go to. A study on reserves was conducted in the past. Some discussion followed and the budget was reviewed in more detail. Vice Chancellor El Fattal explained that we are doing everything we can to increase enrollment and budget assumptions presented to the Board are based off the Governor's Preliminary Budget Assumption and we make adjustments as needed and are brought to the Board for review and approval prior to implementation.

20.02 Board of Trustees Meeting Evaluation.

- **Student Trustee Bryan Rodriguez:** Commented that Board communication was a quality, honest, debate and requested adjourning this meeting in memory of former Ventura County Supervisor John Flynn.
- **Trustee Josh Chancer:** Expressed that he enjoyed our meeting tonight and feels the Board would benefit from hearing from our three college presidents and would like to hear more on the allocation models.

- **Trustee Bernardo Perez:** Commented that tonight was a good meeting and stated Trustees would benefit from staff reports could be more helpful in getting some additional background information, especially for more weighty issues. It is also helpful to have relevant points of the issues. There are measures on the dashboards located on the website that can provide answers and outcomes to some of our questions. Would like to be kept up to speed on improving developments of each of the colleges so he can learn how to better serve the students through the colleges.
- **Trustee Gabriela Torres:** Commented that the meeting went well and there was some good dialogue and communication. It is good to be included in the conversation and share perspectives. Feels that the Board spent the right amount of time on the important issues. Areas of improvement: Would like to hear from our presidents and finds it helpful to hear about the allocation models and would like them to have a formal place to share their information.
- **Vice Chair Stanley Mantooth:** Commented the meeting had some positive communications. He found the staff reports to be enlightening. The process is sometimes lengthy, but we have very positive deliberations. Cannot say enough good things about our classified staff awards. They are well deserved. Things we can do better: Work to understand that a budget is a living document and gets changed all the time. Budgets must begin conservatively and be adjusted later. Our decision making: Independent voices are a strength in advocacy. Action is dependent on the majority, not who speaks the loudest or the most. Decisions are based on majority vote.
- **Chair Dianne McKay:** Commented that Board communication was transparent and Board members spoke well to one another throughout the meeting. Our “no” votes have consequences and can mean we cannot get things done. It is a dangerous game to play. She also likes hearing from the college presidents and misses that and suggests that perhaps in the future they can report out briefly.
