Start Term

Fall 2023

Catalog Course Description

Examines infants and toddlers from pre-conception to age three including physical, cognitive, language, social, and emotional growth and development. Applies theoretical frameworks to interpret behavior and interactions between heredity and environment. Emphasizes the role of family and relationships in development.

Meets CA Title 22 regulations for infant-toddler teachers and program directors.

Approved for Continuing Education hours by the California Board of Registered Nursing, provider number 02811 for 30 contact hours.

Student Learning Outcomes (CSLOs)

Upon satisfactory completion of the course, students will be able to:

connect observed behaviors of children birth to 36 months to developmental concepts and theories in the physical, cognitive, language, social and emotional domains.

Course Objectives

Upon satisfactory completion of the course, students will be able to:

- summarize developmental milestones, characteristics, and growth patterns of children from conception through 36 months.
 apply current research to evaluate the impact of various birth practices on the newborn and family.
 describe the primary role of the family in the development of the child.
- 4 link neurobiological processes to infant and toddler development.
- 5 relate developmental theory to infant and toddler development, interactions, and relationships.
- 6 compare and contrast caregiving practices and environments that support optimal development.

Course Content

Lecture/Course Content

- 10% Overview of Developmental Theory and Processes
- · 20% Influences on Development
 - Family
 - Cultural perspectives
 - · Care settings
 - · Routines and schedules

- · 30% Developmental Domains and Processes
- · 20% Variations in development
- · 20% Current Research on:
 - · Brain development
 - Social development
 - · Influences on growth patterns
 - · Early intervention

Methods of Evaluation

Which of these methods will students use to demonstrate proficiency in the subject matter of this course? (Check all that apply):

Written expression

Skills demonstrations

Methods of Evaluation may include, but are not limited to, the following typical classroom assessment techniques/required assignments (check as many as are deemed appropriate):

Essay exams

Group projects

Individual projects

Journals

Objective exams

Oral presentations

Problem-solving exams

Quizzes

Reports/papers

Research papers

Role playing

Simulations

Skills demonstrations

Written homework

Other (specify)

Classroom Discussion

Projects

Participation

Other

Child study

Infant-toddler classroom observation and evaluation

Instructional Methodology

Specify the methods of instruction that may be employed in this course

Audio-visual presentations

Case studies

Class activities

Class discussions

Collaborative group work

Computer-aided presentations

Demonstrations

Distance Education

Field trips

Group discussions

Guest speakers

Instructor-guided interpretation and analysis

Instructor-guided use of technology

Internet research

Large group activities

Lecture

Modeling

Observation

Readings

CD M21: Infant and Toddler Development

Role-playing Small group activities Web-based presentations

Describe specific examples of the methods the instructor will use:

Instructor will use PowerPoint presentation, short videos, group activity, and classroom demonstration to explain course content. Instructor will bring students into the Child Development Center to conduct observations.

Representative Course Assignments

Writing Assignments

- Essays on topics pertaining to infant care and education such as what factors influence infant's cognitive, emotional, social, and
 physical development.
- · Recorded and interpreted observations of infants and toddlers.
- · Evaluations of field trips to infant child care centers.

Critical Thinking Assignments

- Deliver a presentation on current research on brain development, social development, influences on growth patterns, or early intervention.
- Compare and contrast infants or toddlers of similar age with variances in family structure, cultural perspectives, care settings, or routines and schedules.
- Conduct research to include library and Internet sources on such topics as how care settings, routines and schedules influence infant and toddler development.

Reading Assignments

- Read a current Child Development journal article pertaining to course topics such as brain development, social development, influences on growth patterns, or early intervention.
- Read a current news article pertaining to course topics such as brain development, social development, influences on growth patterns, or early intervention.

Skills Demonstrations

- Role-play a conversation between a teacher and a child's caregiver(s).
- · Role-play a conversation between a teacher and an administrator.
- Present analysis of a current news article on a course topic to the class.
- Present analysis of a current Child Development journal article on a course topic to the class.

Outside Assignments

Representative Outside Assignments

- · Completion of developmental milestones checklists.
- Assigned readings from text and early childhood professional journals involving case studies of infant development.
- · Documentation of infants and toddlers development.

Yes

Example of Assignments Requiring Library Resources

Journal article critiques; and research, utilizing the Library's print and online resources, on topics related to infant-toddler development such as how care settings, routines and schedules influence infant and toddler development.

Distance Education Addendum

Definitions

Distance Education Modalities

Hybrid (1%-50% online) Hybrid (51%-99% online) 100% online

Faculty Certifications

Faculty assigned to teach Hybrid or Fully Online sections of this course will receive training in how to satisfy the Federal and state regulations governing regular effective/substantive contact for distance education. The training will include common elements in the district-supported learning management system (LMS), online teaching methods, regular effective/substantive contact, and best practices.

Yes

Faculty assigned to teach Hybrid or Fully Online sections of this course will meet with the EAC Alternate Media Specialist to ensure that the course content meets the required Federal and state accessibility standards for access by students with disabilities. Common areas for discussion include accessibility of PDF files, images, captioning of videos, Power Point presentations, math and scientific notation, and ensuring the use of style mark-up in Word documents.

Yes

Regular Effective/Substantive Contact	
Hybrid (1%-50% online) Modality:	
Method of Instruction	Document typical activities or assignments for each method of instruction
Asynchronous Dialog (e.g., discussion board)	Regular use of asynchronous discussion boards encourages various types of interaction and critical thinking skills among all course participants. Questions and topics posed will allow students to discuss, compare and contrast, identify, and analyze elements of the course outcomes. Other discussion boards may be used for Q&A and general class discussion by students and the instructor to facilitate student success and strengthen student learning outcomes.
E-mail	E-mail, class announcements, and various learning management system tools such as "Message Students Who" and "Assignment Comments", will be used to regularly communicate with all students on matters such as clarification of class content, reminders of upcoming assignments and/or course responsibilities, to provide prompt feedback to students on coursework to facilitate student learning outcomes, or to increase the role of an individual educator in the academic lives of a student. Students will be given multiple ways to email the instructor through both the learning management system inbox and faculty provided email account.
Face to Face (by student request; cannot be required)	The instructor may hold weekly, scheduled office hours for students to be able to meet and discuss course materials or individual progress. Students can request additional in-person or web conferencing meetings with the instructor as needed. Faculty may encourage online students to form "study groups" in person or online. Note: For hybrid classes, face-to-face class time will provide opportunities for students to discuss amongst themselves (in groups or pairs) and ask questions about the material to facilitate SLOs and course outcomes.
Other DE (e.g., recorded lectures)	Faculty may use a variety of ADA compliant tools and media integrated within the learning management system to help students reach SLO competency. Tools may include: Recorded Lectures, Narrated Slides, Screencasts, Instructor created content, MC Online Library Resources, Canvas Peer Review Tool, Canvas Student Groups (Assignments, Discussions), Websites and Blogs, Multimedia (YouTube, Films on Demand, 3CMedia, Khan Academy, etc.)
Synchronous Dialog (e.g., online chat)	Instructor may provide a set time each week to be available for synchronous chat and be available in the discussion board to answer questions in live time.
Telephone	Instructor may provide a phone number for the students where they can leave a voicemail and expect a call back within 24 hours.
Video Conferencing	Video tools such as Zoom can be used to provide live synchronous or asynchronous sessions with students. ADA compliance will be upheld with Closed Captioning during the session or of the recorded session. Video Conferences will be used to facilitate SLOs and student-to-student group meetings will also be encouraged.
Hybrid (51%–99% online) Modality:
