

Ethan Gray

Director of Campus Events

What is your major, and what year are you in at MC?

I am an Astrophysics major and this will be my last year at Moorpark College!

What types of questions can students come to ask you about?

As Director of Campus Events, I oversee and facilitate ASMC events and activities on campus! While I am accessible for any questions, clubs or student organizations can reach out to me if they are interested in holding an event in collaboration with ASMC. I am also a participating member of Programming Committee, which awards funding to support student engagement. Multicultural Day Committee will be another committee I will participate in this year. Feel free to reach out to me if you have any questions regarding these committees!

What are you most looking forward to while serving on ASMC?

As Director of Campus Events, my goal is to create exciting engagement opportunities for our campus community. I believe the foundation to a positive, collective campus experience is the student's ability to express their talents, articulate their diverse interests, and participate in impactful, inclusive events. I hope I can provide many opportunities to enhance the campus community and leave a lasting impact on students.

What is your favorite place or spot on campus?

My favorite place on campus is the lookout at the far end of the observatory parking lot! While it is fairly secluded and not well known, the views toward Moorpark are incredible. The Wi-Fi also reaches out to this area, so it serves as a great study spot!

What do you love most about MC?

The faculty and staff at Moorpark College go above and beyond to help their students. In every challenge I have faced at Moorpark College, there was a supportive staff member willing to help me. I appreciate every staff member on campus for improving the lives of students.

Are you involved in anything at MC?

While I am currently not involved in campus groups besides ASMC, I am the former SPACE Club President. Time to time, I enjoy dropping in to various clubs to hear their discussions and projects they are working on. It is exciting to see the collaboration and work Moorpark College students put into their passion projects, and I look forward to seeing many more throughout the year!

Any fun facts or hobbies you would like students to know about you outside of your ASMC involvement?

During my free time outside of Moorpark College, I enjoy many outdoors activities. Hiking, gardening, discovering new trails, and travelling to new places when I have a free weekend take up most my free time. I find that taking a spontaneous day trip to somewhere new is always a unique experience and a source of inspiration.
