## ASSOCIATE IN SCIENCE IN BIOLOGICAL SCIENCES DEGREE

The Associate in Science in Biological Science degree is in alignment with the University of California (UC) Transfer Pathways and is intended to prepare students who plan to transfer to a UC as a Biology major. In addition to meeting the minimum UC transfer admission requirements, students completing this degree will have met the major preparation requirements for admission to the UC. Students are encouraged to work with a counselor and consult the ASSIST database for possible additional coursework and transfer requirements.

To earn an Associate in Science Degree with a major in Biological Sciences, students complete 40 specified units, plus General Education Degree Requirements. These major requirements optimize preparation for upper division course work for advanced degrees in Biology offered by four-year institutions. In addition, earning this degree suggests an achievement of technical skills that may be helpful in seeking immediate employment.

In addition to General Education degree requirements, complete the following:

REQUIRED COURSES	UNITS
BIOL M02A/M02AH General Biology I/Honors	5.0
BIOL M02B General Biology II	5.0
CHEM M01A/M01AH General Chemistry I/Honors	5.0
CHEM M01B General Chemistry II	5.0
CHEM M07A Organic Chemistry I	5.0
CHEM M07B Organic Chemistry II	5.0
MATH M25A/M25AH Calculus with Analytic Geometry I/Honors	5.0
MATH M25B Calculus with Analytic Geometry II	5.0
<b>TOTAL UNITS</b>	<b>40.0</b>

## Physics Sequence (recommended but not required for the AS degree):

MATH M15/M15H	Introductory Statistics/Honors	4.0
PHYS M20A	Mechanics of Solids and Fluids	4.0
PHYS M20AL	Mechanics of Solids and Fluids Lab	1.0
PHYS M20B	Thermodynamics, Electricity and Magnetism	4.0
PHYS M20BL	Thermodynamics, Electricity and Magnetism Laboratory	1.0

## TRANSFER NOTES:

Some of UC's biology majors also require one year of calculus-based physics with lab (not trigonometry-based physics) and/or one term of statistics before graduation from UC. Students can complete these courses at Moorpark College if schedule allows, but students can also complete them after transfer without negatively affecting their competitiveness for admission to UC.

## PROGRAM STUDENT LEARNING OUTCOMES

Students completing the Associate in Science in Biological Sciences will be able to:

- demonstrate an understanding of biological observation and experiments as well as the information and theories derived from both of these methods of study.
- utilize the scientific method to critically analyze data and results.
- understand how evolutionary principles provide a comprehensive model for understanding the origins and relationships of living organisms.
