

# Tara Pai Director of Constitution and Standing Rules

## **What is your major, and what year are you in at MC?**

I am a Computer Engineering major, and I am a sophomore at Moorpark College.

## **What types of questions can students come to ask you about?**

Students can ask me questions regarding how they can get involved with ASMC, and what the election procedure looks like. They can also ask me how to find other ways to get involved with leadership on campus. Students can also ask me how to document meetings or where to look for certain policies that regard our college. Students can also feel free to talk to me about any other advice or personal input they would like from me whether related to ASMC or not. I love getting to know my peers, so don't feel shy!

## **What are you most looking forward to while serving on ASMC?**

I look forward to seeing students get together both on and off campus. I want to foster student campus engagement and help them take advantage of the numerous student run organizations and student clubs.

## **What is your favorite place or spot on campus?**

I love the space of grass on campus, when walking down to the gymnasium. It looks like a park from my childhood, and when looking down the hill you can see so much of the campus and environment, which is very beautiful.

## **What do you love most about MC?**

My favorite thing about MC is how diverse our student body is. Moorpark College sees people from all walks of life, and as part of ASMC I hope to learn and listen from how to support every individual. I hope to watch myself and others flourish during our time here.

## **Are you involved in anything at MC?**

For this year I will be serving as President for MC Girls Who Code. Our mission at GWC is to study computer science and related disciplines, while also building a supportive network of female peers. I wanted to make a change on my campus for a group that I was a part of and also felt underrepresented in. GWC is not just for women, but for all of those who are passionate or interested in studying computing, and would like to support women through that journey.

## **Any fun facts or hobbies you would like students to know about you outside of your ASMC involvement?**

I love hiking with my family, or going for walks with my dog. When I had more time on my hands I would also bike, skate and play guitar. A little fun fact about me is that my zodiac sign is Scorpio.
