

Kaylee Martinez (She/Her)

Director of Public Relations

As Director of Public Relations, Kaylee promotes all ASMC projects and events using ASMC social media accounts. Arabella outreaches to outlets to spread awareness of ASMC's events, activities, and initiatives. As Director of Public Relations, Kaylee serves on the Inter-Club Council and collaborates with other ASMC Directors as well as club representatives to promote campus student life.

What is your major, and what year are you in at MC?

I am a Mathematics Major, and this will be my 3rd year here at Moorpark.

What types of questions can students come to ask you about?

Students can come to me with anything PR related! Whether you need guidance on promoting your club, help with reposting your graphics, information on pricing and ordering designs, or even support with ordering club merch, I'm here to help!

What are you most looking forward to while serving on ASMC?

I'm most excited to get creative with how we share events and resources on campus! Whether it's through graphics, social media, or helping clubs promote themselves, I can't wait to make ASMC more engaging and help students feel connected to all the amazing things happening at Moorpark.

What is your favorite place or spot on campus?

My favorite spot on campus has to be the 3rd floor of the library. It's such a lively and versatile place. I love that I can head there to study and use the whiteboards when I need to focus, but it's also a spot where I can relax and spend time with friends. The giant beanbags are perfect for catching a quick nap between classes, and there's always something fun to do, like a game of oversized chess or checkers. I also appreciate the little touches, like the free snack bowl.

What do you love most about MC?

What I love most about MC is the community and the opportunities it has opened up for me. My first semester was challenging. Community college wasn't my first choice, and because I signed up late, most of the classes I wanted were already full. At first, I felt uncertain about my path, but the support and encouragement I found from the people here made all the difference. Getting involved with ASMC and different clubs has made my time here so fulfilling, both in and out of the classroom. I've grown so much through the connections I've made, and that sense of community is what I truly love most about Moorpark.

Are you involved in anything at MC?

I serve on the board of WEMS, a club dedicated to supporting women and minorities in engineering, mathematics, and science fields. I'm also a Course-Embedded math Tutor working with the Tutoring and Learning Center, where I support students in building their math skills.

Any fun facts or hobbies you would like students to know about you outside of your ASMC involvement?

While I may be a math nerd, I definitely have a creative side too! One of my favorite hobbies is doing my own nails. I love working with extensions and crazy designs. It's like a little art project on a tiny canvas every time. Sometimes I even do nails for my friends, whether it's for a special occasion or just for fun.
