Case Management approach to serving our disproportionately impacted student populations

FIELD TRIPS TO UNIVERSITIES

Creation of a system allowing us to more quickly identify students that are off the path

For the first time ever, Moorpark College is hosting Deciding Day. This event will be held in collaboration with the well-established and semi-annual MC Club Rush event. The goal for

DECIDING DAY

Deciding Day provides a space for students to commit to their program of study of choice- and for those who need more guidance, to be able to meet with instructional faculty, academic counselors, and Success Coaches to ensure they are on the right path

PATHWAY MAPPERS

Moorpark College is one of six California Community Colleges selected to participate in the Program Pathways Mapper (PPM) 2.0 pilot. PPM is being completely redesigned with the student in mind, and will have several new features, including a new student interface.

STUDENT PLANNER

We have spent seven months designing a customized 25-26 student planner that will guide students through their academic year. This planner includes access to all of the amazing campus resources, important dates and events!

STUDY MAPS

Program of Study Maps are being established in alignment with AB 928 and reflective of CalGETC implementation. The Guided Pathways data dashboard has been completely overhauled to allow instructional faculty the opportunity to engage with and obtain valuable information regarding the students they serve. We look forward to providing more opportunities for our instructional faculty to engage with this data platform.
