## Anatomy/Physiology

### **ANPH M01    Human Anatomy & Physiology 5.00 Units**

PREREQUISITE: BIOL M01 or BIOL M02A

Introduces the structures and the relationships of human body parts and explores how the functioning of the parts is related to their structure. The combined study of anatomy and physiology allows students to effectively integrate the study of structure with functioning of the system. The themes of hierarchical structural organization and maintenance of homeostasis form the framework for the study of the human system at both macroscopic and microscopic levels. In laboratory, students will examine the structure/function relationship through the required dissection of a cat. A human cadaver will be used to demonstrate the principles in the human body. A variety of instruments and techniques will be introduced to assess functioning in the living body. The emphasis in both lecture and lab is on student understanding of systems integration and co-dependence. Applies to Associate Degree. NOTE: CRN 39742 - THE CHRONICLES OF NARNIA Can you imagine a better way to learn about philosophy and literature than through the beloved vision of C.S. Lewis and his enchanted world of Narnia? From both a philosophical and literary perspective, this collaborative, team-taught class will explore the wonderfully engaging novels from THE CHRONICLES OF NARNIA. Along our journey we will also touch on other relevant films and texts, both literary and philosophical. So put on your ring, come through the closet wall, and enter another world, which promises new discovery and learning. Students MUST enroll in both ENGL M01B (CRN 39641) and PHIL M01 (CRN 39742).
